Memorandum

To: Files

From: Glen A. Miller

Subject: Tract U-a/U-b Inspection-Proposed monitoring well site at retention dam.

Personnel Present:

J. Godlove	WRSOC
D. Johnson	OSO
S. Munson	VTN

Activities:

Construction:

1. Inspected sites of proposed monitoring wells at retention dam. Preliminary site selection by lessee, to be submitted to OSO. Wells designed to monitor bedrock and alluvium for detection of leakage.
2. Inspected supply well sites on White River. Rip-rap protection blanket has minimized erosion, high water shift in upstream channel condition has formed a partially protective sand bar above the well field.
